THE GREAT INVENTION OF THE AGE:

Steam Supplanted I—Gas Triumphant!!

THE first baif of the interbent century will be recorded
as the age of Steam. It has passed, and with it will
pass the steam engine with the things that were.

The second half of the century will be known as commencing the age of Gas—an agent destined not only to hight
but to Entimers the world. The age has now commenced,
and with it is now introduced the Gas Engine.

Professor John C. F. Salomon, after twenty-six years of
close observation upon the experiment of this own and of
others in attempts to make the principle of the condensation of carbonic acid gas available as a mechanic motor, has
perfected the same: and, having just received letters patent
for his "Improved Carbonic Acid Engine," now offers to
dispose of rights for the use thereof to the United States
government, and to individuals or to companies the rights
of States, counties, or cities.

The immense saving of money and lab r, and of human
lives and suffering, secured by the use of this new motor,
will insvitably insure its speedy adoption in all places
where steam power is now used, and in thousands of other
places where the great expense, bulk, and weight of the
steam engine has precluded its use.

This new motor may be applied to all purposes as a propolling agent, from the single-horas power for the cottongin to the two thousand horse power for occan steamers, with
the expense less than that required by the steam engine, of
holders and furnaces, fuel and firemen, and of bulk and
weight—100 bons weight sufficing for the same power of
1,900 tons of the steam engine.

These facts are established by the experimental engine of
twenty-dive (25) horse power, www "working well" at Clicinnati, as noticed in the following from the Cincinnati
"Nonparell," of the 18th instant:

"We are pleased to state that J. C. F. Salomon, late of this
city, has received a patent for his motor of carbonic acid
gas, in its application to an engine. The successful experiments of this inven

GAUTIER'S HERB CANDY.

For Coughs, Colds, Bronchitis, Asthma, etc.

THIS INVALUABLE CANDY has the extraordinary property of immediately relieving coughs, colds, hourseness, difficulty of breathing, bronchitis, asthma, and huskiness of the throat. It operates by dissolving the congealed philegm, consequently cau-ing a free expectoration.

Those who are troubled with that unpleasant tickling in the throat, which deprives them of rest night after night, by the incessant cough which it provokes, will, by using this Candy, find immediate relief.

The subscriber, in presenting this Candy to public notice, wishes to be expressly understood that he does not claim for it any miraculous curing properties, nor does he present it with a long string of certificates of recommendation, as he considers these altogether needless.

This Candy is composed of six simple ingredients, principally of herbs, which are known to be very efficacious in the curse of diseases resulting from colds, and some of which, being rather nauseous in their natural state, would deter many from resorting to them; but, when made into a candy, become palatable, without losing any of their valuable properties.

It has been prepared at the suggestion of one of our most eminent physacians, and has been used by many of his and my personal friends with signal success, and at whose earnest solicitation I have been induced to enter largely into its manufacture, assured by him and them that when generally known and tried it will superzede all the various cough candies and mixtures now in use.

As for myself, I am confident, from the ingredients of which it is composed, that, should it not effect an entire cure, it can do no injury even to the most delicate in health, and therefore have no hesitancy in introducing it to the control of the co

CIRCULAR.

Washington, August 1, 1851.

SIR: After consulting many persons interested in the principal Railroads in the United States, the undersigned propose to establish agencies in this city and in New York, for the purpose of collecting full and authentic Railroad statistics and such other information as will enable them to serve persons desiring to invest in Railroad scarrities, or to procure information of any matters connected with the construction and administration of Railroads. They also propose, especially, to urge upon Congress a modification of the laws relating to contracts for carrying the mail, so as to authorize the Post Office Department to contract for the perpetual use of Railroads, and, instead of paying, as now, quarterly on contracts for four years, to advance in five per cent, bonds of the United States, chargeable upon the revenues of the Post Office Department, an amount, the interest upon which at 6 per cent, would equal the payments now made.

The Government now pays \$300 per mile for carrying the mail on first-class Railroads. This is 6 per cent, on \$5,000. The undersigned would urge that, instead of paying \$300 a mile, per annum, the Department should deliver, on a contract in perpetuity, five \$1,000 bonds, bearing an interest of five per centum. At this rate the charge upon the Department would be reduced from \$300 to \$250 a mile, per annum, and the \$50 a mile saved would create a sloking fund, which will, in a few years, pay off the bonds, and give the use of such roads forever thereafter free of all charge; thereby effecting a vast saving on the present annual expenditures of the Post Office Department, and a consequent reduction of the rates of postage.

The effect will be no less advantageous to Railroad company to complete its road at an early day, and greatly increase its business and profits.

But to meet objections and impress the public mind with a proper sense of the benefits to result from this measure will require concert o

WONDERFUL DISCOVERY!

"NONE NEED DESFAIR."

All must admit there never has been given such a mass of genuine testimony in favor of any other medicine. Give it a trial! It cures when all other remedies have failed. Greater weight of testimony cannot be given—from the first men in this country.

BALTIMORE, Sept. 18, 1851.

GENTLEMEN: After a full and satisfactory trial of the medicine prepared by you, and very generally known as Dr. Hampton's Vegetable Tincture, which you recom-Dr. Hampton's Vegetable Tincture, which you recommended me to use as a relief for the debility and general prostration of my system, the result of taking three bottles of this wonderful compound has, I am pleased to say, resulted in a restoration of strength, a keen appetite, and an activity of body which I have not enjoyed for a long time. So satisfied am I of the virtues of this medicine, that I have confidently recommended it to many of my friends and acquaintances, and am happy to learn that in a great majority of cases the most beneficial results have stamped the injallibility of the Tincture. In my own case, I am satisfied that your advice to me to give it a trial has, under the blessing of a kind Providence, resulted in a restoration to health, for which I am truly thankful.

Respectfully, JUS. K. STAPLETON, 198 W. Baltimore street.

TRY IT AND BE CURED.—WONDERFUL AND PERMANENT CURE OF DYSPEPSIA.

Messrs. Mortimer & Movebray.—Gentlemen: This is to certify that in the year 1843 1 was attacked with a nervous affection, in consequence of Dyspepsia or Indigestion, which continued some eighteen months, during which time my sufferings were intense, both of body and mind. I tried every thing I could think or hear of, (as there was much sympathy for me.) and at length all efforts failed to cure me. I became much weakened, and could walk but a very short distance at a time, and was often in the act of falling upon the pavement, (I would stop in some door or alley to prevent it.), in consequence of frequent palpitations; and, from what I could learn, I supposed I had disease of the heart, from frequent distressing pains about the same; as also my chest and abdomen—the latter being much distended. At this stage of my disorder I could neither eat, sleep or walk with any satisfaction to myself. Life seemed to be a burden to me. My feelings were gloomy beyond description.

I at length heard of Dr. Hampton's Vegetable Tincture, and made trial of it. I had but taken the first dose when I felt a change for the better, and hope immediately sprang up. I continued, with the use of this invaluable Tincture, to improve daily, until I had taken the contents of three bothes, which, under Divine Providence, made a perfect cure of me.

I found I had an excellent appetite, and could partake

of three bottles, which, under Divine Providence, made a perfect cure of me.

I found I had an excellent appetite, and could partake of any food, which I could not do for years previously without the most distressing sensations. I now enjoy uninterrupted good heatth, and have done so for the last six years; and would say to all afflicted as I have been to cast aside your prejudices, and try Hampton's Vegetable Tincture. Any intornation beside this but meagre description of my case will be given cheerfully for the benefit of the afflicted. Yours, WILLIAM M. OLDHAM, Custom-House; dwelling, Fayette st., near Fremont.

SUCH A MASS OF HOME TESTIMONY MUST CARRY

SUCH A MASS OF HOME TESTIMONY MUST CARRY CONVICTION TO EVERY MIND.

BAILTMORE, Sep. 18, 1851.

Mesers. Mortimer & Moubray—Gentlemen: The cure of Mr. Robert Gault, by the use of three bottles of Hampton's Vegetable Tincture, as per his certificate, is, I think, almost unprecedented. His case of extremely excruciating suffering, from Chront Inflammatory Rheumatism, came immediately under my own observation, through the last four years, which I considered entirely hopeless. Through my earnest persuasion, he was induced to try your invaluable Tincture. I was prompted to remark at the time, that if medicine would care Mr. Gault, it certainly would "remove mountains." The knowledge of this miraculous cure compels me to consider it a duty I owe to the afflicted (and particularly to those with complaints like his) to make generally known the healing power of this truly wonderful medicine. Yours, most respectfully,

JAMES P. MERRITT,

ESSENCE OF COFFEE.

With 12½ Cents to save four Pounds of Coffee!

This ESSENCE has been proved by many thousands of the richest and most respectable families, as well as by the poorer class of people, almost through the whole United States, to be by far the best preparation of Coffee ever offered to the public. Coffee made by this Essence is much more wholesome, more delicate, fine-flavored, perfectly clear, and, in every instance, superior to the mest Jara coffee.

In order to give full satisfaction and proof that the above article is perfectly healthy, and to show something of the deserved reputation it has gained and justly entitled to, we amex a few certificates and recommendations, particularly relating to health, from Dr. Booth and Dr. Chilton, practical Chemists and Analysists of the cities of Philadelphia and New York; also, from our Agents, all of whom are prominent Chemists and Druggists.

College Avenue, Tenth st., below Market st., Philadelphia, Sept. 4, 1851.

I have examined the Essence of Coffee manufactured by Hummel, Bohler & Co., and find that its constituents are not in the least degree injurious to health; it may be used freely and with perfect safety.

JAMES HOOTH, Proft. of Chemistry, applied to Arts, Franklin Institute.

I have examined an article prepared by Messra. Hummel, Bohler & Co., of Philadelphia, called Essence of Coffee, which is intended to be used with coffee for the purpose of improving it. I find if free not only from any thing injurious to health, but, on the contrary, the ingredients of which it is composed are perfectly wholesome.

OCTOR HARTLEY, Aurist, from the Ear Infirmary, 99 Arch street, Philadelphia, begs to inform those of his patients in the neighborhood of Washington with whom he has been in communication, that he has, in compliance with their special request, made arrangements to spend a few days in this city. Deafness, noises in the head, and all disagreeable discharges from the external ear, speedily and permanently removed, without causing the least pain or inconvenience; and he will guaranty a cure in all cases where malfo mation does not exist.

Dr. H. may be consulted at his rooms, on Pennsylvania avenue, between 9th and 10th streets, north side, over Myers's dry-good store, from 9 to 3 daily. Evenings by app-intment.

Thirteen years close and almost undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

The following testimonials are submitted with confidence. They will show at least in what estimation his professional quantifications are held by some of the most distinguished medical men of the country:
